

1) About Tantraniketan :

Tantraniketan is a dynamic startup dedicated to advancing technological education and fostering tech enthusiasts across all age groups. Positioned at the intersection of innovation and education, we provide state-of-the-art training that prepares learners for the future.

Our Vision :

To empower learners with the skills to drive technological innovation and create a better future. We aim to cultivate lifelong enthusiasts passionate about technology and committed to continuous growth.

Our Mission :

To educate tech enthusiasts and help them develop skills under the "Skill India Mission." We aim to bridge the gap between educational theories and practical applications, ensuring learners can effectively implement their knowledge in real-world scenarios.

About Us :

Since our inception, Tantraniketan has trained over a thousand students through personalized training, workshops, and technical sessions across various educational institutions. Our hands-on approach encourages participants to apply their knowledge through various projects and collaborations.

Our internship program welcomes school and college students, providing hands-on experience, developing key skills in collaborative settings, and exploring participants' potential in technology and innovation.

At Tantraniketan, we believe education drives innovation and growth. Our programs help participants reach their potential through continuous learning.

We are passionate about nurturing the next generation of tech innovators.
